

Stephen G. Post

June 6, 2017

Dear Friends:

Now the New York Yankees have proven it! On weeks when they volunteer to help kids, they have a .721 winning percentage. On other weeks it is only .558. Read this article with its extensive interview with Dr. Post as to why these results occur. Spread the word to your local teams!

Dr. Post in Newsday on Why the Yankees Have a .721 Winning Percentage on Weeks When They Volunteer VS .558 When They Don't!

It's good to be good. Love works!

Generous helping people win, the others are the losers, as per www.whygoodthingshappen.com.

Cheers
